PROFESSIONAL SUMMARY

Dedicated Computer Science graduate and MERN Stack Developer with hands-on experience in building scalable full-stack web applications. Proven expertise in backend development, API integrations, CRM systems, authentication workflows, and e-commerce solutions. Adept at handling end-to-end deployment and production-level feature implementation. Passionate about writing clean, maintainable code to solve complex business challenges.

PROFESSIONAL EXPERIENCE

Double Tap Innovations and Technologies **Nov 2025 – Present**

MERN Stack Developer

- Develop and maintain production-level MERN stack applications, focusing on scalable backend architecture and high-performance frontend interfaces.
- Design, build, and secure RESTful APIs, authentication systems, internal CRM dashboards, and admin modules.
- Collaborate with cross-functional teams to implement critical business features, resolve production-related issues, and optimize application performance.
- Manage end-to-end deployment, third-party integrations, and ongoing maintenance activities for live client applications.

Company Projects (Double Tap Innovations)

- **Fulupo (E-commerce):** Owned end-to-end backend development for the Delivery Partner module, streamlining order allocation and real-time status management. Contributed to Store and Master Admin modules; maintained clean backend architecture to ensure production stability.
- **Infysec (Training Platform):** Engineered full-stack modules including bootcamp and voucher management systems. Built responsive CRM dashboards and optimized API workflows to enhance administrative data handling and performance.

KEY PROJECTS

V Crackers – E-commerce Suite

- Integrated Razorpay payment gateway to enable secure checkout workflows.
- Automated order notifications and WhatsApp-based authentication using WhatsApp Cloud API.
- Managed product/category lifecycles and backend infrastructure configuration on cPanel hosting.

Leo Crackers – E-commerce Suite

- Built automated order communication systems using Nodemailer for email notifications and WhatsApp API for alerts.
- Developed comprehensive product catalog and admin dashboard modules.
- Handled server-side configurations, deployment monitoring, and application maintenance.

Personal Portfolio Website

- Developed a responsive portfolio using React.js and Tailwind CSS with complex animations via Framer Motion.
- Implemented contact functionality using Email.js and optimized UI/UX for cross-device performance.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB, MySQL

Expertise: REST APIs, Backend Architecture, Authentication Systems, Admin Dashboards, CRM Development

Tooling: Deployment, cPanel, Payment Gateway Integration (Razorpay), WhatsApp Cloud API, Nodemailer

EDUCATION & CERTIFICATIONS

Bachelor of Engineering in Computer Science and Engineering **2020 – 2024**

Sri Ramakrishna Institute of Technology | CGPA: 7.6

Additional Certifications

- Full Stack Development Course – Code Purple Academy
- Cloud Computing – NPTEL
- Business English Certificate (BEC) – Cambridge English Assessment
